

EMCEE INTRO SCRIPT

30-45 SECOND INTRODUCTION

Ladies and gentlemen, our speaker today helps people go from feeling left behind by AI to feeling relevant again.

Braydon Carter is an AI keynote speaker and the founder of Amplify. He works with companies, associations, and business owners who know AI matters, but do not want another technical seminar. He customizes every talk by industry around one promise: make money, save money, or save time.

He is the author of Purpose Over Pressure, has spoken at venues including Paris Las Vegas, and teaches AI in plain English to a community of more than 200,000 people.

Please welcome Braydon Carter.

OPTIONAL SHORTER INTRO (~20 SECONDS)

Our next speaker helps rooms use AI with purpose, not pressure. Please welcome AI keynote speaker and author of Purpose Over Pressure, Braydon Carter.
