

SHORT BIO

ONE-LINER

Braydon Carter is the keynote speaker who makes AI approachable: customized to your industry, anchored in purpose over pressure, and built for action, not hype.

PROGRAM BIO (~60 WORDS)

Braydon Carter is a keynote speaker on AI, helping companies, associations, and SMBs stay relevant in a noisy era. Every keynote is customized to the audience's industry around one promise: make money, save money, or save time. Featured at Paris Las Vegas, accoladed in Toastmasters, and followed by 200K+ across social, Braydon brings AI down from the hype and into the hands of the people who need it.

ALTERNATE SHORT BIO

Braydon Carter is an Idaho-based AI mentor, educator, and keynote speaker who teaches business owners how to use AI in simple, practical ways. He founded Amplify and helps non-technical leaders cut through the AI noise, identify where they are losing time or money, and leave with a clear next step.
